Your long-term nearshore IT partner for stable DACH teams.

Stable teams. Shared purpose. Continuous progress.

WHY WE EXIST

Quadrigis exists to give DACH companies a development center that blends Swiss precision, Austrian hands-on pragmatism, and Romanian adaptability.

This creates teams that fit culturally, work reliably, and think long term — at an exceptional cost–performance ratio. No anonymous "factory" setup — real colleagues who take ownership and think ahead.

MISSION

We attract, develop, and lead top technical talent in Romania and deliver their work to DACH clients at native-level quality.

We combine Swiss structure, Austrian solution-driven pragmatism, and Romanian creative energy — resulting in stable partnerships and measurable outcomes that accelerate projects.

SERVICES

- **Software Engineering:** We design, build, and integrate enterprise-grade software that scales reliably and fits seamlessly into existing systems.
- **SAP & Enterprise Platforms:** S/4HANA, Commerce Cloud, SAP BTP — modernization, integration, support, and measurable business impact through deep SAP expertise.
- **Cloud & DevOps:** Architecture, setup, and operation of secure, scalable cloud infrastructures; CI/CD, IaC, and automated processes for faster, consistent releases.
- **Quality Assurance & Test Engineering:** Testing, QA, and test automation — quality as a mindset: stability, consistency, and trust in every release.
- **Agile Delivery & Governance:** Scrum teams, agile scaling, and clear governance — mature processes that keep teams aligned and ensure reliable delivery.
- **IT Consulting & Advisory:** From C-suite advisory to hands-on team support — strategic and operational guidance that drives clear decisions and measurable outcomes.
- **AI-Supported Development & Autonomous Teams:** AI-driven development for higher productivity, improved code quality, and shorter time-to-market; autonomous teams also available in AT/CH.

OUR CAPABILITIES

Over 50 years of combined leadership experience in IT delivery and nearshoring. Successful engagements in Switzerland and growing delivery across the DACH region. Stable core teams with low attrition and fluent German- and English-speaking communication.

- Legally compliant contracts (EU & Switzerland), data protection aligned with GDPR and Swiss revDSG
- German-speaking points of contact in CH and AT
- Transparent SLAs & governance
- Predictable results, precise delivery, and on-site presence when deviations occur

QUADRIGIS.

Let's build your long-term delivery partnership.

We look forward to our first conversation together.

Think.
Deliver.**

DIFFERENTIATION

We combine top-tier quality with long-term partnerships and real collaboration — ensuring maximum return on your investment and a sustainable impact on people and communities.

- **People first:** We invest above market level in our engineers, offer strong benefits, and create a motivating, stable environment. This drives long-term retention, low turnover, and consistently high performance.
- **DACH-grade quality & reliability:** Clear governance, defined quality gates, and the right balance of quality, efficiency, and impact.
- **Long-term partnerships instead of short-term body leasing.**
- **Flexible delivery models:** Mixed teams for optimal capacity enablement, project-oriented execution, and long-term availability of exclusive, self-managing teams — remote or hybrid.
- **Cultural alignment:** Reliability, punctuality, and transparent communication.
- **AI as a productivity driver:** Faster time-to-market and measurable competitive advantages.
